

New DWI/DUI Resources Now Available!

1

Scientific Evidence in DUI Cases DVD

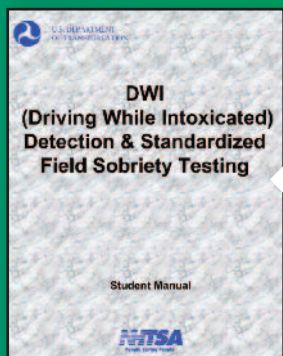

When evaluating chemical test evidence in DUI cases, the defense practitioner must first understand how alcohol is processed in the human body. This DVD addresses the science behind the absorption, distribution & elimination of alcohol in the human body, and issues with blood-alcohol concentration measurement. It also covers measurement with breath testing—including fuel cell devices, infrared devices, and factors affecting breath test analyses, as well as blood testing—including measuring alcohol in the blood, and factors that affect blood test analyses.

2

Cross of Field Sobriety Test DVD

Learn how to win your next DUI case with best-in-practice cross-examination techniques that specially highlight the shortcomings of the field sobriety tests. This one-hour DVD — presented by Steven Oberman, one of the criminal defense bar's leading experts on DUI — takes you through the steps of the standardized field sobriety test and shows you how to use it to prove your client's innocence.

3

DWI Detection & Standardized Field Sobriety Testing Student Manual

This valuable and instructive manual describes how SFSTs are to be administered under ideal conditions and is used nationwide to teach police officers how to properly do their jobs. Recently updated in 2009, this informative tool can be used to your advantage when cross-examining the administering officers in your next big case! The manual is in a book bound format and includes tabs for easy referencing of information.
