A group of protesters is standing on the steps of a large, classical building at night. They are holding a long, illuminated sign that reads "STOP THE SPY CENTER". The building has large columns and a brightly lit entrance. The scene is dark, with the primary light sources being the building's interior lights and the blue glow of the protest sign.

Other strategies:

- Attacks to 4th Amendment Protections against warrantless search and seizure
- Proving discrimination based on map
- Attacks to First Amendment Protections to free speech
 - *City council approved restrictions to protest at the same time they approved funding for DAC*
- Land Codes
- Overblown efficacy of technology
- Anti-Democratic practices

Several Strategies: Land Codes

- “SAIC was still involved in nuclear weapons when this contract came before you, and you knew that. So, to go through with this is also against the Nuclear Free Zone Policy. And I would like to know, since you did go through with it, if they are being fined the 500 thousand dollars that they should have been fined because they were not within their own guidelines.
 - *“Domain Awareness Center - Oakland - LocalWiki.”*

Several Strategies: Efficacy

- “There is no solid evidence that mass surveillance such as being proposed by the DAC prevents crime—especially violent crime. This is a myth propagated by companies that want to sell DAC technologies to every city and town across the country, making bazillions in profits from your tax dollars to no effect. It is a myth that is eagerly lapped up by police and politicians who want to ‘do something’ about crime instead of investing long-term in education and living-wage jobs, the real crime reduction strategies.”

Several Strategies: “the inverse of democracy”

- “How did it get like this? It gets like this when we sit down, and we don’t say anything, and we let people support the DAC, and we don’t protest. And we say this is how democracy works. This is not democracy. Last time we were here, there were more people on the agenda than any other meeting item by a factor of 5 and we got pushed back. I was told that if we had more people we would be pushed back so far that we wouldn’t be able to speak. This is not democracy. This is the inverse of democracy! It’s the exact opposite.”
