“Pattern Cross-Examination of Experts is an easy-to-follow, practical guide to arm the advocate against an often intimidating adversary — the opposing expert. This inspired and meticulously crafted how-to guide more than levels the playing field by presenting an easy and consistent path to an effective dismantling of the expert’s opinion in virtually every context. In trial preparation, our scarcest resource is time, and Pattern Cross saves a ton of it. It almost feels like cheating. But more importantly, Waddington’s approach to reducing or eliminating the impact of the opponent’s expert vastly increases the confidence of the advocate in an otherwise stressful situation. I’d never want to try a case without it.”

— Jacquie Goodman, The Law Offices of Jacqueline Goodman (Fullerton, CA)

“Michael Waddington has done the criminal defense bar a favor by composing required reading and resource material for young and experienced trial lawyers alike. This comprehensive book belongs on the bookshelf of all criminal defense practitioners.”

— Drew Findling, The Findling Law Firm (Atlanta, GA)

“A resource like no other for trial lawyers with all levels of experience. This is a real lawyer’s manual on the methodical approach to either eviscerating a witness, or getting your point ingrained in the jurors’ minds with no margin of error. The power of the cross-examination techniques in this book is exceeded only by the voluminous examples of succinct questions on just about every key topic you will encounter in trial. This is a step-by-step playbook to effective lawyering when you are in battle.”

— Brian Bieber, GrayRobinson Attorneys at Law (Miami, FL)
