

New NHTSA DRE Drug Evaluation Training Guides

Drug Recognition Expert Course, May 2013 Edition (Participant Guide)

This newest **May 2013 Edition** is now available directly from NACDL as a bound tangible manual — unavailable elsewhere, and ready for immediate delivery. Also available in a word searchable Adobe Acrobat format on CD-ROM.

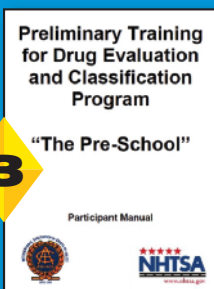

An invaluable resource for any DUI/DWI practitioner, the Drug Recognition Expert (DRE) School is **7 days** of classroom training and hands-on exercises. This training builds on the foundation of knowledge acquired during the Pre-School, and teaches officers how to evaluate drug-impaired drivers. DRE School includes an overview of the drug evaluation procedures, expanded sessions on each drug category, drug combinations, examination of vital signs, case preparation, courtroom testimony, and Curriculum Vitae (C.V.) preparation.

Preliminary Training for Drug Evaluation and Classification Program, May 2013 Edition (Instructor Guide)

This newest **May 2013 Edition** is now available directly from NACDL as a bound tangible manual — unavailable elsewhere, and ready for immediate delivery. Also available in a word searchable Adobe Acrobat format on CD-ROM.

An invaluable resource for any DUI/DWI practitioner, the Drug Recognition Expert (DRE) Pre-School is **2 days** of lectures and hands-on exercises. It introduces officers to basic drug terminology, pharmacology, the seven categories of drugs, how to identify the signs and symptoms of drug impairment associated with seven drug categories, and the twelve steps of the evaluation process. The Drug Recognition Expert (DRE) Pre-School includes an overview of the DRE evaluation procedures, the seven drug categories, eye examinations and proficiency in conducting the SFSTs.

Preliminary Training for Drug Evaluation and Classification Program, May 2013 Edition (Participant Guide)

This newest **May 2013 Edition** is now available directly from NACDL as a bound tangible manual — unavailable elsewhere, and ready for immediate delivery. Also available in a word searchable Adobe Acrobat format on CD-ROM.

An invaluable resource for any DUI/DWI practitioner, this training relies heavily on the Standardized Field Sobriety Tests (SFST's), which provide the foundation for the DEC Program. The DEC Program trains police officers and other approved public safety officials as drug recognition experts. Once trained and certified, DREs become highly effective officers skilled in the detection and identification of persons impaired by alcohol and/or drugs. DREs are trained to conduct a systematic and standardized 12-step evaluation consisting of physical, mental and medical components.
